🐦 @pankajkumaar01

TechnicalSkills

Languages : Javascript,SQL, MySQL

Framework : HTML,CSS,Javascript,React

Developer Tools : GitHub,Visual Studio Code,Chrome DevTool,Word,Excel,PowerPoint

Relevant Coursework

- Data structures • Algorithm Analysis • Database Managment • Object-oriented programming
- Computer network • Operating System • Software Testing • Analytical Skills

Projects

Weather App | HTML,CSS,JAVASCRIPT,React and Weather API

- Created a responsive Weather App using HTML, CSS, and JavaScript and React integrated with weather API for real-time updates. The app features an intuitive interface displaying current conditions and forecasts, highlighting my skills in front-end development and API integration.

Meme Generator App | HTML,CSS,JAVASCRIPT and React

- Meme Generator app that allows users to generate customized memes by integrating external APIs. This project enhanced my skills in responsive design, state management, and user interaction.

Sorting Visualizer | HTML,CSS,JAVASCRIPT

- Created a Sorting Visualizer using HTML, CSS, and JavaScript to demonstrate various sorting algorithms in javascript, including Bubble Sort, Selection Sort, Insertion Sort, Merge Sort, and Quick Sort. The interactive tool visually represents each algorithm's process, helping users understand the mechanics of sorting through data structures and algorithms.

Education

2018

10th class

Navy children school

Kochi, Kerala

Percentage scored 83.2%

2020

12th class

Navy children school

Kochi, Kerala

Percentage scored 80.8%

2021-25

B.Tech

New Horizon Collage of engineering

Bengaluru, Karnataka

CGPA 7.11

Extracurricular

Social Media Engagement Twitter: @pankajkumaar01 | Engaged in discussions on marketing trends and shared insights on effective strategies.

Attending workshops, webinars, seminars on relevant technologies or trends in computer science.
